Dear Inamdar Sir and Patil Sir,

As discussed, I am connecting you to Mr. PVS Murthy, Chief Executive Officer at Cyber Chakravyuh Pvt Ltd.

PVS Murthy worked with PWC in various roles and retired as a Managing Director. He was the Global Head of TCS's Governance, Risk and Compliance Practice. https://www.linkedin.com/in/pvsmurthy1989/?originalSubdomain=in

We worked together in TCS. He is a guide and mentor; I learned many lessons from him in my cyber security career.

PVS Sir, Inamdar Sir and Patil Sir are working in the Computer Science and Engineering department of Daultrao Aher College of Engineering, Karad.

The cyber security industry is currently struggling to get skilled resources, despite it being the most lucrative area of career building. Having worked at a very senior level, PVS Sir is looking at solving this problem through Cyber Chakravyuh.

He would like to engage with Daultrao Aher College of Engineering, Karad to explore the possibilities for attracting engineering minds to the field of cyber security and mentoring them in their career journey.

He has a plan to visit Satara and Karad later this month. He would like to use the visit to interact with the staff and students.

Thanks and regards
Vinayak Gode

Dear Vinayak,

Thanks so much for the introduction and the kind words that you have put in for us.

Dear Prof.Inamdar and Prof.Patilji,

It's a pleasure to e-meet you. By way of introduction I am PVS Murthy, MD & CEO of Cyber Chakravyuh Pvt Ltd, a start up company started a few months back after my retirement from PricewaterhouseCoopers as a Partner. I have overall experience of 38 years in IT and Cyber Security most of which is with PricewaterhouseCoopers, Tata Consultancy Services and Bank of Baroda.

Primary objective of our company is to provide Cyber Security skills to students from Tier-2 and Tier-3 cities, Small towns and rural areas so that they get good placements, internships and live Projects. Here is a brief introduction about Cyber Chakravyuh Pvt Ltd

****

Cyber Chakravyuh Pvt Ltd was established with an aim to enhance the skillbase of Engineering students in the field of Cyber Security especially from Tier-2 and Tier-3 cities
and rural areas in India and groom them as employable resources by the time they finish their Engineering courses. Our Platform "CyberYogi" allows students to learn at their own pace while pursuing their Engineering. All learning resources and assets are made available online on our platform which gives flexibility to the students.

Students are offered a platform called 'CyberYogi' wherein course material will be made available to them, some of which are paid ones while some are free. Access to the platform is provided free of cost to the students who register themselves with the platform which is again free. CyberYogi encourages students to learn in their free time while pursuing their Engineering courses. Three levels of Cyber Security courses are made available

a) Foundational
b) Intermediary
c) Expert level.

Certifications are offered on the platform some of which are provided free of cost while a few others are paid certifications. Once a student completes learning a course, an assessment is done to verify how much has been learnt. There will be a number of Quizzes available on various subdomains and topics of Cyber Security for a learner to assess his/ her level of understanding of the topic. CyberYogi also intends to offer reimbursement of course fee for bright students who evince keen interest in learning and who are active on the learning Platform.

Students also get guidance from Industry Leading experts called 'Mentors' who will not only conduct sessions on specific topics (webinars) for the benefit of students, but also guide them in their career path.

Students usually have a lot of anxiety about their career, scores in the exams and so on and these concerns are addressed by the Mentors in their interactions with the Students.

CyberYogi platform helps students in their placements, will make efforts to work on live projects of reputed companies and also strives to provide Internships to students for shorter time durations like 1 to 3 months.
****

We would like to visit your college and address your 3rd and 4th Engineering college students and offer access to our platform. We believe that the colleges & students are now busy with exams and hence we request you to arrange a session of about 2 to 3 hours duration with your students sometime towards the end of February or early March. Please let us know your views.

Thanks and look forward to hearing from you

Warm Greetings from AGTI's Dr. Daulatrao Aher College of Engineering, Karad, Dist-Satara, Maharashtra.

Dear Sir,

It would be a golden opportunity for us to interact with you sir. It will really help our students and faculty members to explore new opportunities present in the field of cyber security. Now in this month (first 2 week) TE & BE students are engaged with their University examination. So please share your free schedule with us so we can plan accordingly. Students will probably be free at the end of February month.

AGTI's Dr. Daulatrao Aher College of Engineering Karad was established in 2008 by Dr. Ashok G. Gujar, as a part of Shri G. K. Gujar Memorial Charitable Trust's activities at Karad. The Institute is approved by the All India Council for Technical Education (AICTE) New Delhi, Directorate of Technical Education (DTE) Mumbai, and Government of Maharashtra and is affiliated to Shivaji University Kolhapur.

The Institute offers engineering programs in Civil Engineering, Computer Science and Engineering (CSE), Electronics and Telecommunications, Mechanical Engineering leading to B.E. Degree as per Shivaji University Curriculum. The Institute has dedicated faculty members and staff and is well equipped with laboratories. The Institute has received an ISO 9001 – 2008 and ISO 10002 – 2014 Certification and NAAC Accredited with B+ grade.

AGTI's Department of Computer Science and Engineering was established in the year 2008; where the future of computing resides here, providing techno rich facilities imparting quality of education for students to excel in their field.

The main objective is to provide outcome based education to students in the field of engineering. With this aim in mind the management, faculty and staff have commitments towards academic excellence and relevance. We at AGTI's DACOE, Karad believe in rational and visibility.

Dear Dr. Ashish

Thanks for your quick reply.

Yes, we can plan this session on 4th March, Friday. I will also invite an Industry expert for this session so that students can benefit from his/ her address and they can understand some 'real' issues from the corporate perspective.

I will share a detailed agenda and the requirements from your side in a day or two. You may have a look at it and approve. We will then proceed with other arrangements. We may need your Institute Logo for us to prepare a Banner.

I am assuming this is offline (Physical) interaction with the students. Please confirm the same.

Thanks and regards

Proposal for Cyber Security Session cum Hackathon and Cyber Yogi Platform Launch

To,
The Principal,
AGTI's DACOE, Karad

Subject: Permission to organize Cyber Security Session cum Hackathon and Cyber Yogi Platform Launch

We Ms. Sayali P. Shinde and Mr S.Y.Inamdar working as an Assistant Professor in Computer Science & Engineering Department are interested in coordinating **Cyber Security Session cum Hackathon and Cyber Yogi Platform Launch** for Computer Science & Engineering, Mechanical Engineering , Electronics & Telecommunication Engineering UG students and faculties on 4th March 2022

Target Audience

UG Students, Faculties,

Aim of Session

Cyber Chakravyuh Pvt Ltd was established with an aim to enhance the skillbase of Engineering students in the field of Cyber Security especially from Tier-2 and Tier-3 cities and rural areas in India and groom them as employable resources by the time they finish their Engineering courses. Our Platform "CyberYogi" allows students to learn at their own pace while pursuing their Engineering. All learning resources and assets are made available online on our platform which gives flexibility to the students.

Students are offered a platform called 'CyberYogi' wherein course material will be made available to them, some of which are paid ones while some are free. Access to the platform is provided free of cost to the students who register themselves with the platform which is again free. CyberYogi encourages students to learn in their free time while pursuing their Engineering courses. Three levels of Cyber Security courses are made available

a) Foundational
b) Intermediary
c) Expert level.

Certifications are offered on the platform some of which are provided free of cost while others are paid certifications. Once a student completes learning a course, an assessment is done to verify how much has been learnt. There will be a number of Quizzes available on various sub domains and topics of Cyber Security for a learner to assess his/ her level of understanding of the

topic. Cyber Yogi also intends to offer reimbursement of course fee for bright students who evince keen interest in learning and who are active on the learning Platform.

Students also get guidance from Industry Leading experts called 'Mentors' who will not only conduct sessions on specific topics (webinars) for the benefit of students, but also guide them in their career path.

Students usually have a lot of anxiety about their career, scores in the exams and so on and these concerns are addressed by the Mentors in their interactions with the Students.

CyberYogi platform helps students in their placements, will make efforts to work on live projects of reputed companies and also strives to provide Internships to students for shorter time durations like 1 to 3 months.

The Objective of Session

Primary objective is to provide Cyber Security skills to students from Tier-2 and Tier-3 cities, Small towns and rural areas so that they get good placements, internships and live Projects

Resource Persons and Agenda of Session

1. Welcome and Introduction - 15 minutes - College
2. Cyber Security career opportunities- 15 minutes Rahul Agarawal-Partner PwC
3. Government initiative on Cyber -Vinayak Godse, Director, DSCI -15 minutes
4. Importance of Soft Skills during hiring process- 30 minutes- Dr. Anil Patil
5. Overview of Cyber Chakravyuh, its objectives- 30 minutes- PVS Murthy
6. Registration to CyberYogi Platform by Students- 15 Minutes
7. Mini Hackathon- 2 Hours- All students
8. Distribution of prizes to top 3 winners- Honorable Principal
9. Closing comments, announcements and Vote of Thanks
