E -Governance Policy

AGTI'S Dr. Daulatrao Aher College of Engineering Karad has designed E-Governance policy with primary objectives of implementing E-Governance in various services of the institution. To have an integrated user friendly enterprise resource planning(ERP) solution to automate various modules of the institution functioning. Adequate training to all the faculty and staff members have been conducted.

In this direction a few vendors of ERP software are called and quotations are invited as per the recommendations of the technical committee of the institution and suitable ERP has been deployed and put into the appropriate use.

The institution understands the importance of integration of ICT to enhance the overall administration. E Governance is not only participatory but also accountable and transparent for the smooth functioning of the administration. E-governance can facilitate in speedy information, dissemination, improving administrative efficiency and public services in all the aspects of education.

Objective:

1. Implementing e-governance in various aspects of the institution
2. Improving the efficiency of our operations
3. Promoting transparency and accountability
4. Achieving paperless institution administration
5. Facilitating online internal and external communication among the institution's various entities.
6. Making information readily available
7. Making the institution visible globally

E-Governance Domains:

1. **Website:** The institution website needs to be updated to reflect the recent changes. The website shall serve as a reflection of the college's operations, with information about all activities, important updates, and other information readily accessible to visitors.
2. **Admission Details:** The admission details including student admit year, branch, register number and type can be easily recorded. The data can also be retrieved easily. Maintaining of records can become less cumbersome.

3. **Administration Details:** The ERP software allows for easy recording and maintenance of details like preparation of academic calendar, section division, creating e certificates, maintaining diary, fee type. creating user log ins for students and faculty etc.
4. **Academics:** The institution would use the ERP for systematic maintenance of data and details regarding academics. They include details like creating theory and lab time tables, assigning faculty, posting attendance and lesson plans, feedbacks from students, posting study materials, project documents etc.
5. **Library:** ERP helps in simplifying the procedure and saves time in library maintenance. Book renewal dates, rules for issues, renewals, recording new arrivals, projects, department books and many more can be achieved efficiently in shorter span of time.
6. **Examinations:** The E-governance simplifies the examination cell maintenance procedures and saves times. It is cost effective also. Many details regarding examinations like names of internals, externals, individual subject marks, calculating mid averages can be fed in the software. Recording Fee details of external examinations is also easy.
7. **Accounts:** The e governance can help the accounts department to record and preserve the details like fee payments, cash on hand, expenditure report, tracking payments etc.

In addition to the above, software can be used for maintenance of fee records and hostel details.

A handwritten signature in blue ink, consisting of stylized, overlapping loops and lines.

EXECUTIVE SUMMARY

RSense Technology Solutions Private Limited is a technology-based products and services company. Our vision is to become one of the leading ERP companies in India.

RSense is a customer-centric organization. We are continuously re-engineering and innovating our products and services to deliver the best to our customers by providing the umbrella of security and comfort necessary enabling them to focus on their vision and goals.

The Founder Chairman of RSense, Principal Dr. B. P. Ronge, is a 3-time University Management Council Member with more than 3 decades of experience in the education sector. He is a reputed educationalist who has to his credit three cycles of NBA to his degree engineering programs & first time accreditation for diploma engineering and pharmacy programs.

Institutes are complex organizations with hundreds of people working in tandem to create an ever-evolving organization. However, while doing so the personnel working at various levels in the hierarchy face many challenges which are highlighted below:

- A. Lack of proper visibility and monitoring of the quality of education
- B. Unavailability of real-time reports required for taking crucial decisions
- C. Cumbersome and redundant data-feeding
- D. Varied proficiency of personnel leading to unstandardised data formats and unstandardised preservation of data
- E. Inaccuracy of reports due to complex algorithms for calculating various key evaluation parameters like PO Attainment, CO Attainment, Success Index, Result Analysis, Faculty-Student Ratio, etc. required for various accreditation agencies as well as other technical & local agencies
- F. Last minute audit trail

In order to address all the pain points, we have developed and launched our proprietary ERP software, RWork, for academic administration. RWork covers:

1. academics wrto outcome-based education (OBE) model, and application of Bloom's taxonomy to generate individualistic Bloom's profile of the students
2. structured digitization of office wrto Student Record and Employee Record and their informational reports easily available; provision to issue Transference Certificates & Bonafide certificates directly from the software
3. reporting modules generating Quantitative Analysis and Data based crucial NBA Reports on the basis of working modules:

COMMERCIALS

1. Pricing

For almost all organizations, cost is the primary factor. The beauty of RWork is that it provides a low cost of entry and affordable fees, without having to sacrifice on the functionality. There is no extra hardware to purchase other than your standard desktop/laptop/tablet, and hence no ongoing IT costs to maintain the system. Our price includes storage and backup costs on our cloud.

SaaS Offering Fee

RWork fee is charged on Software as a Service (SaaS) model on an annual basis. The fee depends on the number of students that will be present in the system during the subscription term. The fee will be charged per institute at **Rs. 6,00,000/- per academic year.**

The price is not inclusive of any government taxes. Support and maintenance is included in the subscription fee.

(Important Note: If the customer is not happy with RWork, it may terminate the agreement/contract within six months after the date of agreement/contract and the amount paid to RSense will be refunded accordingly.)

Training Fee

No training fee to be levied for the initial implementation of RWork as per the initial implementation plan.

Fee for Custom Changes in the Software

Custom changes in the software will be chargeable and to be discussed on case-to-case basis depending on the requirement.

2. Payment Terms

One-year billing advance payment.

Dr.Ashok Gujar Technical Institutes Dr.Daulatrao Aher College of Engineering, Vidyanagar Extn. Banawadi, Karad, Dist: Satara Pin: 415124		Bill No. 16-002	Date-24.10.2016
		Order Ref No.DACOE/LIB/10/102/2016-17 Dated 19.10.2016	
Sr. No	Description	Qty	Price
1	Contract for e Granthalaya Training, Installation and Support	1	20,000/-
		Total	20,000/-

KAVYA Software Technologies

Yogesh Patil

Terms and Conditions:

- One time data migration from existing software to e Granthalaya.
- 2 days training program for library staff.
- Free of cost Online/Telephonic support for next 3 years from date of agreement.
