Observation/Remarks:

Students and faculty members understood the importance of innovation and idea generation.

The Department of Computer Science and Engineering organized a session on "Problem Solving and Ideation" on 30th November 2022. It was a pleasure to have Mr. Sagar Shinde be as the chief guest for the session. In addition to being a Director and CEO, he is also the founder of Amplifier Innovations Pvt.

He has more than seven years of experience in this field. During the course, he gave students an understanding of the various opportunities they would have in the future, what are the new technologies are currently in the market? How they can find the new innovative topics for the project. He also told students about the different website which will help the student for their mega projects.

It is important to organize such events in order to encourage students to be innovative. A better environment can be achieved through innovation in education. It encourages critical thinking and a sense of adventure by embracing innovation in education.

Aside from telling the student how to explore themselves in this world, he also discussed how to explore their self. Throughout the session, the student found it to be very helpful. The students also received some innovative ideas from him.

Subject: Appreciation Letter.

Dear Sir,

I would like to extend my sincere gratitude towards you for your valuable guidance to our UG Students on 21st April to 22nd April 2023. It was certainly a pleasant moment for us to meet you. Thank you so much for accepting our request.

Your ideas and suggestions regarding execution of CSI Student branch activities will certainly contribute immensely in the future. You have also put a light on entrepreneurship, business, research, innovation, patent to create tech friendly atmosphere in the institute. Your visit was a compliment to everyone in our institute. I am confident that good things will come from our joint efforts.

Thanks again, and best regards,

SHASHWATGYAN™
Course for Life

The path of greatness requires a transformation to your higher self.

G GEORGE, Founder and CEO
SHASHWATGYAN - COURSE FOR LIFE

Mr. G George is the Founder and CEO of SHASHWATGYAN, he has completed his Masters in Arts from the Pune University. Training and coaching were always his passion, for which he completed two years of Psychology from the Dukes university London. He completed 2 years of NLP specialization with Mr. Michael Hall, senior most NLP trainer and author. He has total 31 years of corporate experience with companies like Forbes Gokak, Firodia group, TATA group, out of his 31 years he also worked with a UK based training company to explore his skills as a trainer, he has trained companies like Volkswagen, Torq (Germany), Cognizant.

After retiring voluntarily to pursue his passion of training and empowering youth, he founded SHASHWATGYAN in the year 2017, he has then since worked with 38 colleges in and around Maharashtra and Indore. Trained more than 25,000 students, given employment to 10,000 students all from small towns and villages of India. He is solely bound by his grit ideology to work with students from small towns and villages.

He is a Coach, Mentor and Counsellor to many students and believes in transformation. He is determined of his efforts and want to reach as many colleges to give back the lessons of life, which is also the tag line for his founded company 'SHASHWATGYAN-COURSE FOR LIFE.

His ETHOS: Training for us is a means not an end – it is not so much in the text books as it is in the field of real business and customers. All models, approaches and frameworks we use are doggedly focused on pure application, application, application. All examples are taken from real life and applied to your own business there and then.

His VISION: Every student is BORN TO BE SUCCESSFUL; we have to nurse, nurture and assist them on this journey, it requires a shift of mind, a changeover in thoughts and activate the self-belief to bring out the best from every student. Unleashing their true and real potential.

His BELIEF: Training for the sake of training is futile and just an exercise, it's not just academic, it's more REAL. We must ensure complete development of minds than just work on honing skills when they are not ready to explore and learn.
