Summary:

In this study we have studied a lot of things about the industry and the organization. This gave us the chance of getting close or to get mixed with the environment of the industry. It will help us in the future for better management.

In this whole study we understood the process of manufacturing of Compressor Piston and the Rotor shaft of Motor as well as to understand the mentality of managers, workers and supervisors.

We learned the new processes such as Hobbing, Slot milling, Semi grinding etc. We got to understand the organizational sequence and to be the part of it.

We are thankful to College and the company 'Precision Masters' for giving chance to us to get knowledge and such a wonderful experience.

Sub: Regarding making changes in team member of selection team for Grand Finale Smart India Hackathon-2017.

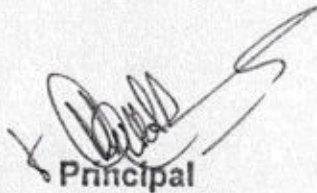

Dear Sir/Madam,

Greetings!

We are extremely thankful to you all for giving overwhelming response for Smart India Hackathon-2017 initiative. We received 7531 team entries out of which 1266 teams have been selected. We are informed that some teams need to change their team co-members due to illness or other travel constraints for the Grand Finale of Smart India Hackathon scheduled on 1st & 2nd April 2017. If any of your selected teams are changing/replacing the original members, then it is requested to you to issue a formal request letter for change of name of the team members. Entire list of new team members should also be given in the letter.

During registration at the venue, students are expected to submit this letter in original signed by principal at the registration desk and present valid photo ID. If the team fails to submit the letter, then they will not be allowed to compete during the Grand Finale. It may please be noted that the team Captain can in no case be changed and that more than three members can be changed per team.

Thank You.

 Subject: Smart India Hackathon-2017 - Urgent and Important from AICTE
 To: principal@dacoe.ac.in

Dear Sir/Madam,

Greetings from All India Council for Technical Education!

As you are aware, that AICTE is committed for upgrading the standards of technical education in India and aggressively working in that direction. We have formulate multiple schemes for welfare of students, faculty and even institutions. Now taking a step forward, we wish to connect directly with students and faculty and engage with them to further enhance the outcome and impact of our various initiative. Recently, AICTE have undertaken multiple novel initiatives like creating the Startup Policy, Smart India Hackathon 2017 and Project Swayam which can benefit faculty and students immensely. From 16th Dec, for the first time, we are launching India's Idea Leadership Talk Series over Facebook Live. During this talk series, we will invite renowned personalities from various fields and give all our students (even in the remotest part of India) the opportunity to listen to them and interact with them through social media. The first talk will be by Prof. Anil Sahasrabudhe, Chairman AICTE on 16th Dec. 2.00 pm and link for the broadcast is <https://www.facebook.com/InclusiveInnovations/>

We want all colleges to broadcast this talk in their campus/auditorium and ensure the presence of students in large numbers. On 15th Dec 2.00 pm, we will do the testing, hence request all the colleges to connect the same URL and test their setup.

More Importantly, to ensure the success of various welfare schemes for students and faculties, we want all the colleges to appoint an ACITE -College SPOC (AICTE-College Single Point Of Contact) through which we can disseminate information and also track the responses. This ACITE -College SPOC should be a young and dynamic faculty member preferably with IT or Computer Science background/ branch. The nominated 'ACITE - College SPOC' will be responsible for following activities;

- 1) The SPOC needs to ensure that information communicated from AICTE related to its various schemes reaches relevant students and faculty members.
- 2) Will ensure 3 submissions from their institutions for Smart India Hackathon-2017 before the deadline.
- 3) Will ensure that all India's Idea Leadership Talk Series are broadcasted in their campuses and keep record of students attending them. The SPOC is also expected to email minimum 2 photos for each Leadership Talk to sih2017@outlook.com which will help AICTE gauge response for the activity.
- 4) Ensure that the attached Thumbnail Proud Contestant Smart India Hackathon 2017 is displayed on homepage of college website and social media profiles of students.
- 5) The questions from students for Leaders during talks will be taken over Twitter or as Comments on the Facebook page. Twitter Handle to ask questions is @IndiaKaldea. You also need to include HashTag #SmartIndiaHackathon2017.

Dr. Ashok Gujar Technical Institute's
 Dr. Daulatrao Aher College of Engineering, Karad

E.g. If you wish to ask question to the leader that what is his Date of Birth, then you can submit your question as '@IndiaKaldea #SmartIndiaHackathon2017 What is the Date of Birth?

All institutions should submit information related to 'College SPOC' before 16th Dec in the online spreadsheet <https://docs.google.com/spreadsheets/d/1M5S366UJDIEscosvstxHAvYWB0ScFVaPt8iMTCwvZ4o/edit?usp=sharing>

The best performing SPOCs will get letter of appreciation from AICTE and enthusiastic colleges will be publically acknowledged.

We hope all colleges will appreciate our various initiatives and will actively support us in enhancing the quality of technical education in India. Let us together build 'Better India'

Regards,
AICTE
