COMPUTER SCIENCE AND ENGINEERING

Vision

To produce competent engineers employable in the Computer Science and Engineering profession for socio-economic and sustainable development.

Mission

- M1: Inducing learning practices for problem solving and technical skills to meet emerging trends in Computer Science and Engineering.
- M2. Collaborative work developing conducive relationship with stakeholders for continuous improvement and enhancing employability skill.
- M3. Grooming computer professionals with ethical values for inculcating research, entrepreneurship and leadership to serve the society in sustainable way.

About Us

Department of Computer Science & Engineering was established in the year 2008 with an intake of 60 students where future of computing resides here, providing the techno rich facilities imparting quality education for students to excel in their field. Department is stood strong having enthusiastic & experienced faculty members aiming for outcome based & quality of education. The main focus is to develop practical oriented activities. Students are trained through various workshops, seminars, expert talks & internship programs to making them skilled professionals having ability to solve real world problems. Department having tie-up with various industries such as IOFT, Galaxy infotech, PHN, Cyber Sanskar, MITU Skillologies, Prygma, ITnium, Vishwa technology, Intellect technology, etc. in order to promote placements & to bridge gap between academics & industry. Department has proactively accomplished the responsibilities of providing computing facility, IT support & consultancy for computer hardware & maintenance. Department is taking initiatives by contributing in social activities such as E-governance, E-services, Environmental Sustainability etc. It also provides strong support system by giving various types of scholarships for economically backward and deserving candidates.

17	Garbage bin Tracking using IOT
18	AI based tool for preliminary diagnostic of dermatological manifestations
19	Online Ambulance Booking System
20	Parkinsons Disease Detection
21	Developing Intelligent Prediction to improve Crop Health Soybean pests Detection & Classification

Extra curricular Activities

NCC Achievements :

Utkarsh Khedkar – Rank Senior Under Officer

Vaibhav Bagal – Rank Junior Under Officer

Faculty's YoutubeChannel:-

1 .Dr. P. M. Sheth has created a YouTube channel "Pranali Sheth about C Programming Language.

2. Prof. A. H. Renushe has created a YouTube Channel "ARCHANA RENUSHE" about Computer Networking Concepts.

Future Plans

- 1) Improvement in teaching and learning process to increase academic consistency in University Examinations results.
- 2) To run NPTEL, Microsoft certification courses with experts from renowned organizations for knowledge discovery and upgrading skills.
- 3) Tie-up with many industries and arrange internship programs for students and provide exposure to work on live industry projects.
- 4) To improve standard of Training and Placement, so that more number of students get placed in MNCs
- 5) To promote our stakeholders for higher education, competitive examination and research by providing various orientation programs.
- 6) To develop central computing hub which will provide as a consultancy for various Online examinations. e.g. TCS ION, SUK online & online Government examination.
